

We look for individual works of art internationally and found this talented ceramist at the Miami Art Fair.

Exclusive to Pool Art, Emilia Cunliffe's Portholes contain little ceramic swimmers in an ocean of turquoise resin. Fabulous back-lit on walls or in your pool room door!

Pool Art and Interiors

Pool Art & Interiors was established in 2005 to help clients with all 'finishing touches' to their pool schemes. We provide a flexible, friendly service welcoming requests for individual items such as pool furniture, water features or creating a complete stylistic concept through specialist paint finishes, art, fabrics, and accessories.

In its first year, Pool Art & Interiors were involved in diverse projects including:

Using the latest technology, we successfully enabled a client to put an image of their choice on the bottom of their outdoor pool.

We painted these fibre-glass pilasters to match the stone floor. A stunning cost effective alternative to real stone!

Our highly qualified artist, Clarissa Parish, is currently painting this indoor pool room in a style reminiscent of Ancient Egypt.

The scheme includes a mural of the Nile, columns and walls painted with decorative Egyptian designs and 3 ceilings gradually changing from daylight to dusk.

We are presently completing an interior design scheme for an indoor pool and family room, based on a classical Roman theme with a contemporary twist. Including lion masks 'spitting' water, fountains, curtains, bar, billiard table and dining table. . . photos in our next newsletter!
